KIRAN B K

B.Tech CSE (Artificial Intelligence & Machine Learning) | Amity University Bengaluru
kirankumarbk824@gmail.com | linkedin.com/in/kiran-bk-b1a3a9385/

PROFILE

CSE (AIML) undergraduate interested in Machine Learning, Generative AI and full-stack development. Hands-on experience through academic projects and hackathon work involving Python, ML workflows, Flask, SQL and frontend development. Currently strengthening Python, DSA and core computer-science fundamentals while building practical AI applications.

EDUCATION

B.Tech — Computer Science & Engineering (AIML) **Expected 2028**
Amity University Bengaluru

Relevant coursework: Machine Learning, Data Structures & Algorithms, DBMS, Operating Systems, Computer Architecture.

TECHNICAL SKILLS

Languages	Python, C, C++, JavaScript, HTML, CSS
AI / ML	Machine Learning, data preprocessing, classification, regression, model evaluation, Generative AI concepts
Web / Backend	Flask, SQLAlchemy, Streamlit, REST APIs, responsive frontend development
Databases / Tools	SQL, MySQL, Git, GitHub

PROJECTS

SOVEREIGN-X — Agentic AI Workbench

Contributed to the frontend of an on-premise agentic AI workbench for confidential industrial workflows. Built dashboard, task, evidence, approval, security and report interfaces using HTML, CSS and JavaScript, and worked on frontend-backend integration.

AI Resume Analyzer & Job Matcher

Developed a Flask-based application concept for resume analysis and job matching using Python, SQLAlchemy and AI/ML workflows.

House Price Prediction

Built a machine-learning prediction application with data preprocessing, model training/evaluation and a Streamlit interface.

Iris Flower Classification

Implemented a beginner ML classification workflow covering feature preparation, model training and evaluation.

Random Quote Generator

Created an interactive web application using HTML, CSS and JavaScript with a responsive user interface.

EXPERIENCE / ACTIVITIES

Smart India Hackathon — Internal Qualifier, 2026
Worked as a frontend contributor on SOVEREIGN-X, translating the AI workflow into a user-friendly interface and supporting integration with the team backend.

CERTIFICATIONS & LEARNING

Scaler Technology — Python Certificate | Currently developing skills in Python, Machine Learning, DSA, DBMS, OS and Generative AI.

CAREER INTERESTS

Machine Learning Engineering • AI/Generative AI • Full-Stack Development • AI Applications • Software Engineering
